Preface

- **Preface**

Dear Candidate,

Pure Minds Academy is pleased to extend warm congratulations to you for the successful completion the Pure Path Career Planning Assessment. Recognizing the importance of your career-related concerns, this education and career planning assessment have been tailored to meet your unique needs and requirements, offering comprehensive planning for a more fulfilling life and a promising tomorrow.

Our dedicated researchers are committed to delivering a career planning solution in line with Pure Minds Academy's vision, providing top-tier education and career planning services to those in need, actively contributing to each individual's career trajectory

Our bespoke planning approach imparts direction and purpose to your education and career decisions. Through a scientifically proven methodology and efficient resource planning, you will navigate towards the realization of your future aspirations. We meticulously collect pertinent information, including your career goals, interest levels, and feasibility, conducting a thorough analysis of your current status to formulate a strategic plan for achieving your objectives.

We eagerly anticipate witnessing your success unfold on this journey.

Best regards,

Pure Path Team

PURE MINDS ACADEMY

Profiling

● **Your Profiling**

Personal profiling is the first step in career planning. The purpose of profiling is to understand your current career planning stage. It will help decide your career objective and roadmap. The ultimate aim of the planning is to take you from the current stage of career planning to the optimized stage of career planning. Personal profiling includes information about your current stage, the risk involved and action plan for your career development.

Current Stage of Planning

Ignorant	Confused	Diffused	Methodical	Optimized

Confused

Confused: You are at the confused stage in career planning. We understand that you are having little idea of career planning, but usually confused among various career options. At this stage, you are looking for proper guidance. Generally, at this stage, your career decisions shall be influenced by friends and parents.

**Risk Involved**: Wrong selection of a career path, career dissatisfaction, and self-interest mismatch.

Action Plan : Explore your strengths and weakness > Explore career options > Gather information>Match best suitable option> Early execution.

Result of the Career Personality

Personality Assessment will help you understand yourself as a person. It will help you expand your career options in alignment with your personality. Self-understanding and awareness can lead you to more appropriate and rewarding career choices. The Personality Type Model identifies four dimensions of personality. Each dimension will give you a clear description of your personality. The combination of your most dominant preferences is used to create your individual personality type. Four dimensions of your personality are mentioned in this chart. The graph below provides information about the personality type you belong to, based on the scoring of your responses. Each of the four preferences are based on your answers and are indicated by a bar chart.

Personality Type: Introvert:Sensing:Feeling:Judging

Introvert-[100%]   Extrovert-[0%]

Sensing-[86%]   iNtuitive-[14%]
(Observant)   (Futuristic)

Thinking-[43%]   Feeling-[57%]

Judging-[100%]   Perceiving-[0%]
(Organized)   (Spontaneous)

Analysis of Career Personality

- ## Your Career Personality Analysis

Where do you prefer to focus your energy and attention?

I Introvert

- You mostly get your energy from dealing with ideas, pictures, memories and reactions which are part of your imaginative world.
- You are quiet, reserved and like to spend your time alone.
- Your primary mode of living is focused internally.
- You are passionate but not usually aggressive.
- You are a good listener.
- You are more of an inside-out person.

How do you grasp and process the information?

S Sensing (Observant)
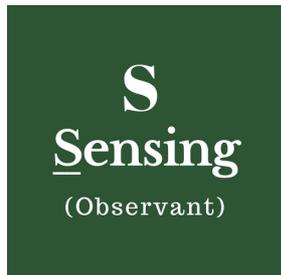

- You mostly collect and trust the information that is presented in a detailed and sequential manner.
- You think more about the present and learn from the past.
- You like to see the practical use of things and learn best from practice.
- You notice facts and remember details that are important to you.
- You solve problems by working through facts until you understand the problem.
- You create meaning from conscious thought and learn by observation.

How do you make decisions?

F Feeling

- You seem to make decisions based on your values or the feelings of others involved.
- You seem to be ruled by your heart instead of your head.
- In your relationships, you appear caring, warm, and tactful.
- You look for what is important to others and express concern for others.
- You tend to judge situations and others based on feelings and circumstances.
- You seek to please others and want to be appreciated.

PURE MINDS ACADEMY

Analysis of Career Personality

● **Your Career Personality Analysis**

How do you prefer to plan your work ?

J
Judging
(Organized)

- You prefer a planned or orderly way of life.
- You like to have things well-organized.
- Your productivity increases when working with structure.
- You are self-disciplined and decisive.
- You like to have things decided and planned before doing any task.
- You seek closure and enjoy completing tasks.
- Mostly, you think sequentially.
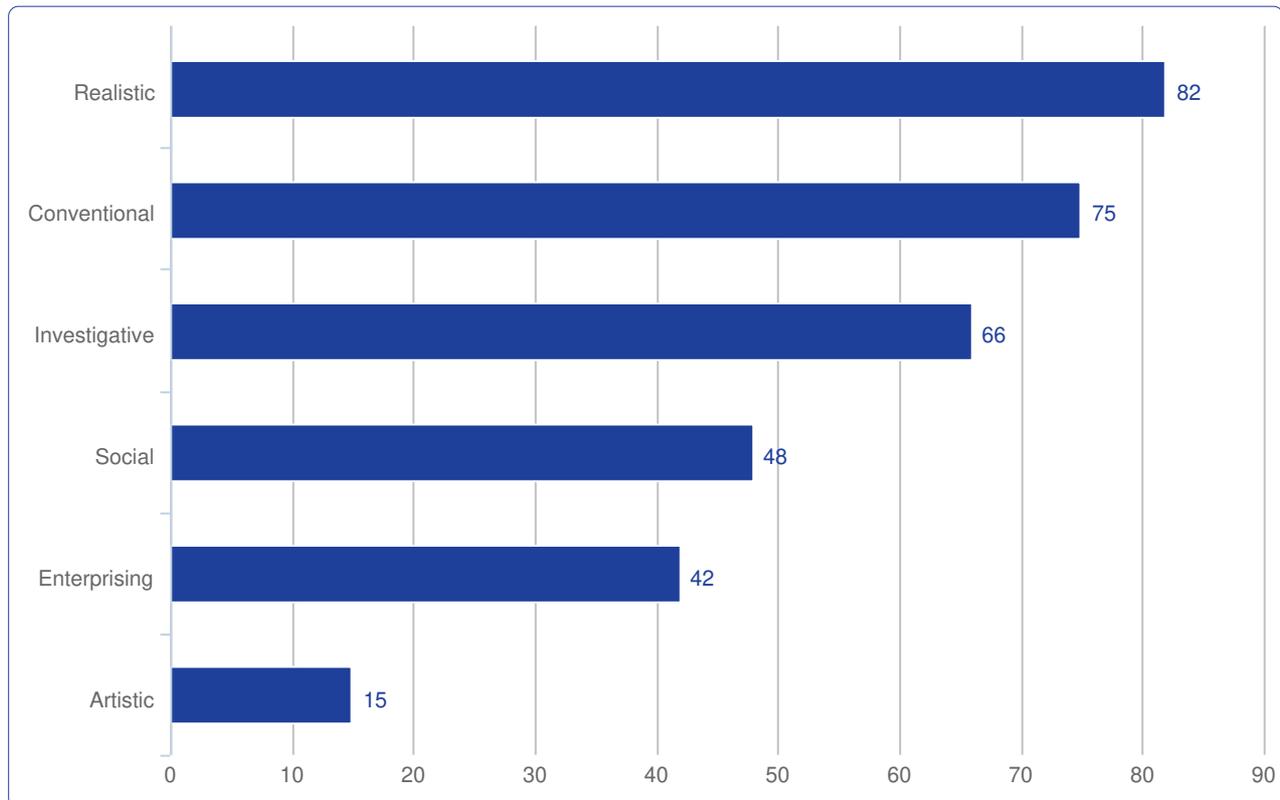

Your strengths

Strength

- Friendly and affirming
- Helpful and supportive
- Reliable and responsible
- Well-organized
- Excellent practical skills
- Committed and loyal
- Imaginative and observant

Result of the Career Interest

● **Your Career Interest Types**

The Career Interest Assessment will help you understand which careers might be the best fit for you. It is meant to help you find careers that you might enjoy. Understanding your Top career interest will help you identify a career focus and begin your career planning and career exploration process.

The Career Interest Assessment (CIA) measures six broad interest patterns that can be used to describe your career interest. Most people's interests are reflected by two or three themes, combined to form a cluster of interests. This career interest is directly linked to your occupational interest.

Interest Type	Score
Realistic	82
Conventional	75
Investigative	66
Social	48
Enterprising	42
Artistic	15

Analysis of Career Interest

● **Your Career Interest Analysis**

Realistic-HIGH

R
Realistic

- You are active and stable and enjoy hands-on or manual activities.
- You prefer to work with things rather than ideas and people.
- You tend to communicate in a frank, direct manner and value material things.
- You may be uncomfortable or less adept with human relations.
- You value practical things that you can see and touch .
- You have good skills at handling tools, mechanical drawings, machines or animals.

Conventional-HIGH

C
Conventional

- You are efficient, careful, conforming, organized and conscientious.
- You are organized, detail-oriented and do well with manipulating data and numbers.
- You are persistent and reliable in carrying out tasks.
- You enjoy working with data, details and creating reports
- You prefer working in a structured environment.
- You like to work with data, and you have a numerical or clerical ability.
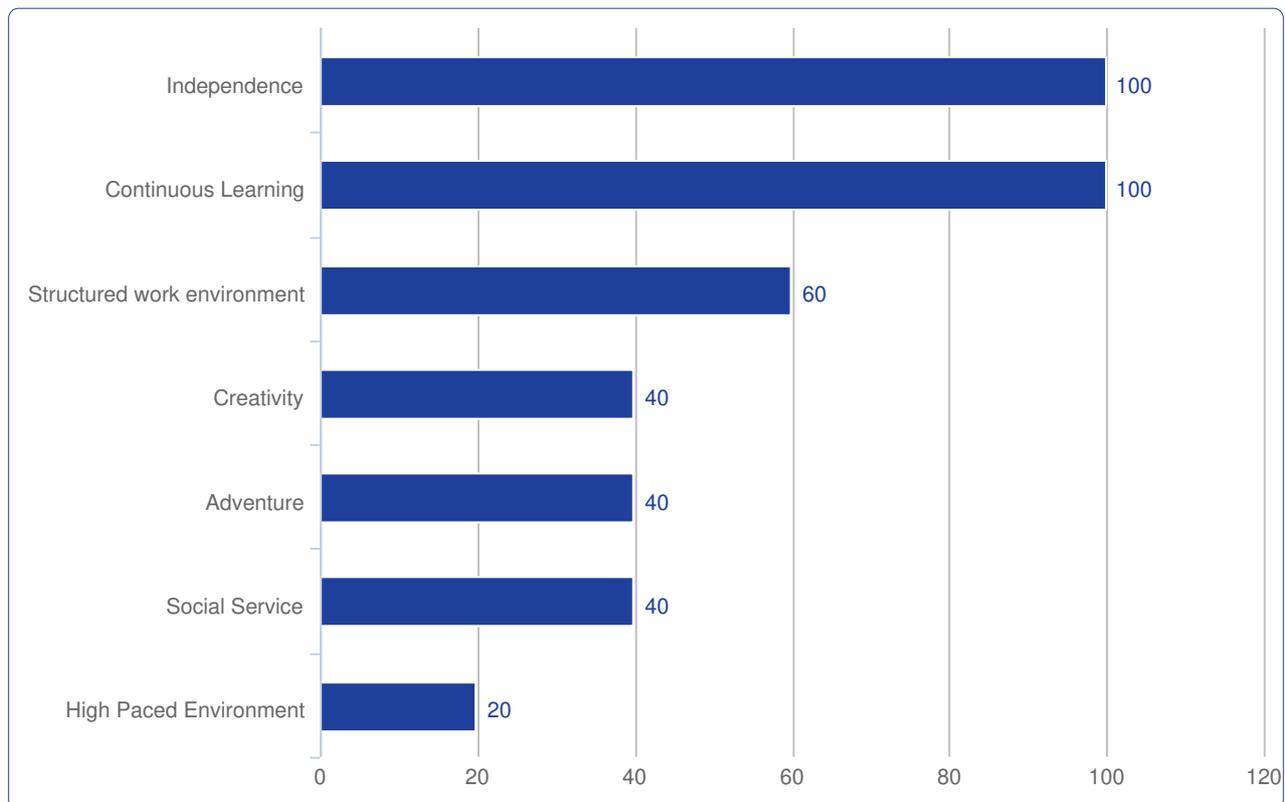

Investigative

I
Investigative

- You are analytical, intellectual and observant and enjoy research.
- You enjoy using logic and solving complex problems.
- You are interested in occupations that require observation, learning and investigation.
- You are introspective and focused on creative problem solving.
- You prefer working with ideas and using technology.

Result of the Career Motivator

● Your Career Motivator Types

Values are the things that are most important to us in our lives and careers. Our values are formed in a variety of ways through our life experiences, our feelings and our families. In the context of Career Planning, values generally refer to the things we value in a career. Being aware of what we value in our lives is important because a career choice that is in-line with our core beliefs and values is more likely to be a lasting and positive choice

Motivator	Value
Independence	100
Continuous Learning	100
Structured work environment	60
Creativity	40
Adventure	40
Social Service	40
High Paced Environment	20

Analysis of Career Motivator

● Your Career Motivator Analysis

Independence-HIGH

Independence

- You enjoy working independently.
- You dislike too much supervision.
- You dislike group activities.

Continuous learning-HIGH

Continuous Learning

- You like to have consistent professional growth in your field of work.
- You like to work in an environment where there is need to update your knowledge at regular intervals.
- You like it when your work achievements are evaluated at regular intervals.

High paced environment-LOW

High Paced Environment

Pleasant Work Enviorment

- You enjoy a pleasant work environment and honesty as a part of your work.
- You enjoy creativity, liveliness.
- You dislike work pressure, timelines, and targets.

Result of the Learning Style

● **Your Learning Style Types**

Learning Style	Value
Read & Write Learning	25
Auditory learning	25
Visual Learning	25
Kinesthetic Learning	25

PURE MINDS ACADEMY

Analysis of Learning Style

● **Your Learning Style Analysis**

Visual learning style

- These learners need to see the teacher's body language and facial expression to fully understand the content of a lesson.
- They generally prefer to sit at the front of the classroom.
- These individuals think in pictures and may learn best from visual displays including diagrams, illustrated text books, overhead transparencies, videos, flipcharts, use of interactive whiteboards and handouts.
- During a lesson or classroom discussions, visual learners often prefer to take detailed notes to absorb the information.

Auditory learning style

- These individuals learn best through verbal lessons, discussions, talking things through and listening to what others have to say.
- Auditory learners interpret the underlying meaning of speech through listening to the voice tone, pitch and speed.
- These learners often benefit from reading the text and notes out loud and/or listening to recorded notes and information from texts.

Analysis of Learning Style

● **Your Learning Style Analysis**

Learning improvement strategies

- Work in groups or with a study partner; i.e. discussions: listening, talking.
- Review assignments and text reading before class.
- Read notes and text out loud.
- Recite information that is important to remember.
- Record notes, key information and lectures; listen to recordings regularly.
- Use audio books/convert books into audios.
- Mathematical/technical information.

    a. State the problem out loud

    b. Think through a process or sequence of steps: write out, then read out loud

    c. Discuss questions/problems in a group or with a study-buddy

Read/Write learning style

- Reading and writing learners prefer to take in the information displayed as words.
- These learners strongly prefer primarily text-based learning materials.
- Emphasis is based on text-based input and output, i.e. reading and writing in all its forms.
- People who prefer this modality love to work using PowerPoint, internet, lists, dictionaries and words.

PURE
MINDS
ACADEMY

Analysis of Learning Style

● Your Learning Style Analysis

Kinesthetic learners

- Kinesthetic (or tactile) learners learn best by touching and doing.
- Hands-on experience is important to kinesthetic learners.
- It includes demonstrations, simulations, videos and movies of *"real"* things, as well as case studies, practice and applications.
- Sometimes, it can be difficult for the individuals with this learning preference to sit still for long period of time.

Learning improvement strategies

- Highlight important points in text.
- Create flashcards for key information; be concise.
- Limit the amount of words/information:allows for mental imagery.
- Convert notes and translate words into symbols, diagrams and/or pictures.
- Create visual reminders of information.
- Practice turning visuals back into words.
- Color-code, underline and/or highlight information.
- Be creative with charts, diagrams and mindmaps.

Analysis of Learning Style

● **Your Learning Style Analysis**

Learning improvement strategies

- Re-write your notes after class.
- Use coloured pens and highlighters to focus on key ideas.
- Write notes to yourself in the margins.
- Write out key concepts and ideas.
- Compose short explanations for diagrams, charts and graphs.
- Write out instructions for each step of a procedure or math problem.
- Print out your notes for later review.
- Post note cards/post-its in visible places. (when doing dishes, on the bottom of the remote etc).
- Vocabulary mnemonics.
- Organize your notes/key concepts into a powerpoint presentation.
- Compare your notes with others.
- Repetitive writing.
- Hangman game.

Learning improvement strategies

- Skim through reading material first to understand the theme or main idea.
- Move around as you read aloud or study; walk and read; work in a standing position.
- Record notes and listen to it while exercising.
- Take frequent study breaks.
- Listen to music while studying.
- Sit in front of the classroom.
- Stay actively engaged in class: take notes, write key points, draw charts.
- Create hands-on learning when possible.
- Use models, extra lab time, visit museums or places that connect to course material.
- Create cards for processes.
- Colour code the primary information.
- Limit information; use keywords, symbols or arrange in order; shuffle and repeat.
- Type over notes from text and class.
- Create spreadsheets, tables, charts to organize material.

Skills and Abilities

● **Your Skills and Abilities**

The skills & abilities scores will help us to explore and identify different ways to reshape your career direction. This simple graph shows how you have scored on each of these skills and abilities. The graph on the top will show the average score of your overall skills and abilities.
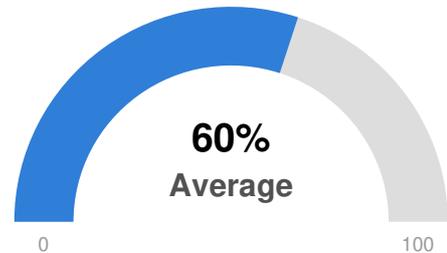

Overall Skills and Abilities

70% - Good

Numerical Ability

- Your numerical skills are good.
- Numeracy involves an understanding of numerical data and numbers.
- Being competent and confident while working with numbers is a skill, that holds an advantage in a wide range of career options.

80%
Good

0   100

Logical Ability

- Your logical skills are average.
- Logical thinking is very important for analytical profiles.
- Being able to understand and analyze data in different formats is considered an essential skill in many career options.
