

WINTER CAMP 2022

Little Explorers

Studio One Hotel, Studio City

Week/ Dates	STEM	Technology
Week1 12/12 to 16/12	Around the World Learn about the famous landmarks around the world! Travel through India, China, Egypt, Sweden and France, building the famous landmarks from these places	Unplugged Coding Learn the concepts of coding without the use of a computer. Every activity will help children learn a different aspect of coding like logical sequencing, algorithms,
Week2 19/12 to 23/12	Catching the Wind Learn about wind by building a pinwheel to catch the wind, building instruments to measure wind speed and direction – anemometer and wind vane, and have fun designing and building a sail car and harmonica.	LEGO Robotics Design, create, and code great science projects with LEGO elements and an easy, intuitive, block-based coding interface
Week3 26/12 to 30/12	Animal Superheroes Learn about the habitat, nature and diet of animals like fluttering butterflies, creating camouflage, and how the beaks of the birds are based on their diet.	Code a Fantasy world Have fun coding a fantasy world with a range of interactive software and hardware-based hands-on activities, like designing a fairyland and coding Kubo to get stronger and save the princess
